

Pendulum PRESSES

MODEL 53A Series 2

MODEL 59A Series 1

Quick-acting foot presses are used extensively for many light punching, riveting, bending or forming operations in sheet metal, cardboard, paper, celluloid, etc.

This type of press leaves both hands free for holding and locating the work. The Model 53A (Series 2) Press features Adjustable Stroke Leverage (three fulcrum positions) and a foot pedal which is adjustable to suit the operator.
